Frequently asked questions

1. Can my family members take up different plans under the same policy?

Yes, but dependant's cover must not be higher than the policyholder. For dental rider, all family members must choose the same plan as the policyholder.

2. Is there any family discount?

We offer 10% family discount for three (3) or more family members covered under the same policy. Families must include at least 1 insured adult.

3. My spouse and I already have medical insurance with another provider. Can I take up individual HSBC Life SmartCare Optimum Enhanced to cover only my child?

No, proposals for children must include at least one parent or guardian. Children must be aged at least eighteen (18) years at their next birthday to be eligible for a standalone policy.

4. Will you re-underwrite my policy at renewal? Will I be penalised if I have made a claim in the current policy year?

We will not change the terms of your policy simply as a result of your personal claims experience. Premiums are decided based on the age of each insured member and also the overall claims experience of all individuals insured with us on the same plan. This community pricing helps minimise fluctuations in your premiums year on year.

5. Am I covered if I travel outside Singapore?

Yes, if you are outside Singapore for periods not exceeding ninety (90) consecutive days at a time. For inpatient other than emergency treatment, our liability is limited to charges for equivalent treatment in Singapore General Hospital, subject to the maximum limits of your plan. If the emergency treatment results in hospitalisation, the inpatient benefit is subject to the maximum policy limits of the plan. For outpatient treatment, we will cover under the general practitioner overseas treatment benefit up to the maximum limit per visit of your plan.

6. Are pre-existing conditions covered?

Pre-existing (non-chronic) are covered under outpatient general practitioner & outpatient specialist care only. Pre-existing chronic conditions are covered under outpatient general practitioner (non-panel) & outpatient specialist care after a waiting period of 12 months.

7. What is a chronic condition?

A chronic condition is a medical condition or episode of ill health which persists for a long period or indefinitely.

The list of chronic conditions include:
